

Baking Instructions for Empanadas

Pre-heat your oven to 350 F or 177 C

Place your frozen Empanadas on a parchment paper covered baking sheet

Place it in your pre-heated oven and bake for approximately 35 minutes (rotating once) until the edges are golden and the filling is bubbling through the holes.

Depending on your oven, the time may vary so it is best to check your Empanadas periodically to ensure it does not over-bake.

Enjoy!
